NOTICE TO U. S. MAIL CONTRACTORS AND THE PUBLIC.
AUDITOR'S OFFICE, POST OFFICE DEPARTMENT,

November 1, 1853 T HAS BEENLONG THE PRACTICE of this office to pay the drafts drawn and nego-tiated by contractors for carrying the United States mails, for the amounts, respectively, of their quarterly pay. It was established to accommodate the contractors, and meet their necessities, in advance of the regular and slewer process of pay-ing by the drafts or warrants of the department, and was intended only to apply to one draft per route from each contractor for the whole amount (deducting fines, collections, &c.,) of his quarterly pay; but it has been, and is quite generally so misunderstood, as to be supposed to allow any number of drafts, and for any amount, not exceed

ng in the aggregate, the contract pay for the quar ter. A privilege conceded for accommodation (for it was never anything more) has thus been made to embarrass materially the business of this office, forced upon it the settlement of the private ac counts of contractors, and thrown upon the ex-changes of the country, with a quasi sanction of this office, a species of paper currency unauthor-ized by the laws.

It not unfrequently occurs, too, that this office i exposed to great and unnecessary risk in deter-mining upon the genuineness of the signatures to the assignments or endorsements of the various persons through whose hands these drafts are made to pass before their

persons through whose hands these drafts are made to pass before their presentation.

It is therefore deemed proper to give this public notice to contractors, and all concerned, that from and after the 1st day of January, 1854, but one draft for the pay upon each route per quarter will be payed, or filed for payment, in this office. This draft should state upon its face, that it is the only one for the quarter and the route (both to be specified) on which it is drawn; and the signature thereto should be attested by the postmaster at the place where it may be drawn, and one other witness; and each assignment thereof should be attested by two each assignment thereof should be attested by two

The Dora is the only anthracit field known in the State of Virginia, and is nearer than any of the Cumberland mines by more than one hundred miles; consequently it enjoys, in re-spect to distance, advantage over any coal that comes to this city. PROSPECTUS OF THE

NORTH CAROLINA STATESMAN. THE undersigned propose, on the first day of January next, at Raleigh, North Carolina, to begin the publication of the North Carolina Statesman, a semi-weekly and weekly paper, devoted to politics, news, and miscellaneous subjects, and respectfully solicit for it a share of the patronage of the democratic party, their friends, and the

Invited by many leading persons of the State rights republican party to propagate and defend principles which we have always held, and regard as the only basis of prosperity in our form of gov-ernment, and inspired with a sincere desire to serve that party and advance its interests, we propose to issue a paper at the seat of the State gov-ernment. In the field of editorial enterprise, there is ample room for those who are now holding po-sition, as well as for others, who choose to enter into fair competition. The propagation of the principles of our party is a duty at once important, and to us peculiarly agreeable. The attractions of the editorial profession and its honorable toils, together with a desire to extend its influence. devoted to principle, may secure sufficient patronage, without interfering with the claims or rights

of any now prosecuting the same great work.

Although mainly devoted to the discussion of such political questions, as they arise, which affect the welfare of North Carolina, whether relating to the federal or State governments, or such local interests as may be of importance, it is nevertheless intended to make the Statesman a medium of general intelligence. Accordingly, the state of the markets in the principal cities, to which our commerce goes, shall be fully and accurately reported nor will the attention of the conductors be less ad dressed to the subject of internal improvements is a means indispensable to the development of the mineral and agricultural resources of the State. These interests, of primary importance, shall al-ways command their fullest attention. To this they propose to add carefully selected and original literary matter. Being strictly conservative, they propose to avail themselves of all the lights of experience, in that progress, which promises the ad-vancement of the interests of North Carolina.

The general objects of the proposed paper being

thus clearly indicated, it may not be amiss briefly o state the particular views which are to be su tained by it as a political journal. 1st. Our purpose being to publish a paper purely de 1st. Our purpose being to publish a paper purely de-mocratic, according to the straightest requirements of that party, we shall advocate strict party organi-zation in its fullest and most comprehensive sense; an organization which originates in the popular will, expressed by the people in their primary as-semblies, and which has been so successfully in-troduced among the democracy of many of the other States, by which the rank and file of the

party are, in fact, those who indicate its decisions and, being all brought into action, express their will imperatively; thus, by open and fair dealing, commanding respect and obedience; an organization of the people, and not of intriguers; restoring power to those who, by sufferance, have tolerated is temporary usurpation. 2d. The democratic party shall always find in us advocates of their right to select their standard bearers, and to command acquiescence in decision made by conventions fairly elected in their primar meetings. Standing upon the good old State rights platform of '98, we shall oppose governmen

or any other measure inconsistent with the rights or any other measure inconsistent with the rights of the States.

3d. Believing that the platform adopted by the timore convention contains the democrat creed, they expect cordially to sustain the presen administration, trusting that the policy adopted by those who compose it will be regulated by the cardinal doctrines of the American democracy 4th. They will advocate all such measures of in-

ternal improvement as promise by judicious prose-cution to promote the interests of the people and diffuse the benefits of a system already enjoyed by portions of the State.

5th. The disposition of the public lands being question of the most absorbing interest, we be lieve it should be at once met and settled. The unjust and unequal legislation of Congress, in re-lation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of ap propriating the proceeds of their sales to the pay ment of the public debt, and the expenses of the government. It has for some time ceased to be either a subject of hope or expectation that there will ever be a return to a policy which had s much to recommend it. Believing that this sytem of squandering and prodigality is not only continue but to grow worse, we shall protes against it, and assert the right of the old States t their equitable share of the lands which remain The power to dispose of the public lands being explicitly declared in the Constitution, the exer explicitly declared in the Constitution, the exer-cise of that power is a question of policy, both as to the time and the mode." Believing, as we do, that it has become the settled policy of Congress to squander the public lands, we adopt the patri-otic language of Mr. Dobbin, and say that "all of North Carolina's sons, both whigs and demo-crats, should protest, and demand North Caro-lina's shore of the capture language.

lina's share of the public domain." 6th. Approving of the sentiments of the inaugural of the President, we shall oppose the acquisition of Cuba or any other foreign territory, unless such acquisition be in accordance with existing treaties, and entirely consistent with the nation
